PROFESSIONAL SERVICES

REACH NEW HEIGHTS
WITH THE RIGHT
PEOPLE, PROCESSES
AND TOOLS.

OUR COMPANY:

Systemware Professional Services, Inc. is a woman owned information technology consulting company founded in 1991. As a privately held company, our business decisions are predicated on long-term objectives that result directly from our understanding our client's goals. Our mission is to earn a trusted partnership with our clients and consultants by solving critical business problems with innovative technology services delivered by a team of talented, energetic and passionate professionals.

SystemwarePS is an Equal
Opportunity Employer

MANAGED TESTING SERVICES:

SystemwarePS' testing services utilizes PT3™ - The Practical Testing Model that maximizes the power of People, Processes and Tools to an end-state of enrichment, efficiency and effectiveness within the full spectrum of testing activities. Partnering with our clients' information technology departments, we enable organizations to reduce their overall application support and deployment costs by implementing testing industry "best practices". We tailor our engagements specifically to each of our clients' unique needs to achieve the desired objective.

Our service offerings include:

TEST AUTOMATION SERVICES

- Test Bed Development
- Test Tool Evaluation
- Test Automation Jump-Start™

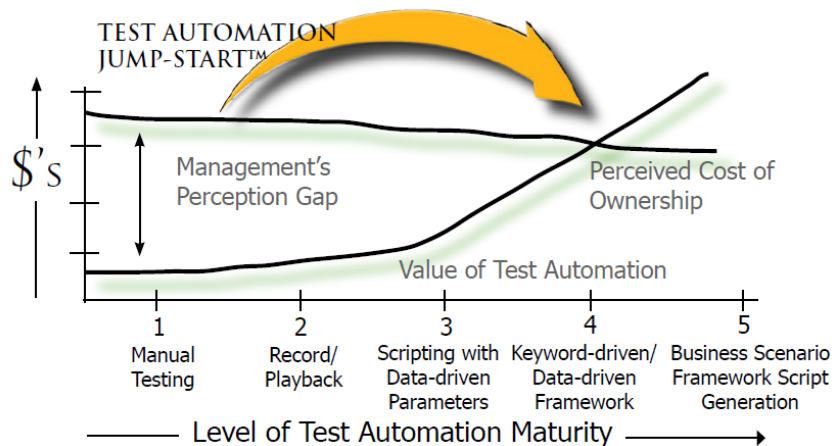

PRACTICAL TEST PROCESS IMPROVEMENT

PT3™ - Assessment

TEST EXECUTION SERVICES

Onsite or Offsite

New Heights of TEST AUTOMATION

Achieving the maximum return on your investment is the goal of each of our testing services. By applying testing "best practices" in an experienced and practical manner, SystemwarePS will help you achieve your goals.

CLIENT-FOCUSED STAFFING SERVICES:

To assist our clients in augmenting their full-time staff with skilled technical expertise, we provide staff-supplemental services in all technical disciplines. Our comprehensive eTEC™ Recruiting Model evaluates a candidate's TALENT (technical skills and intelligence), ENERGY and CHARACTER along with their overall communication skills and commitment. This proven model enables us to establish a solid base of consultants possessing a broad spectrum of technical skills coupled with interpersonal traits that match the client environment. It is this recruiting methodology that allows us to offer quality, value-based technical consultants to our customers to help them achieve their goals. Our account executives and recruiters work closely with our clients throughout the process to ensure a successful engagement.
